Radiation Free declaration

To whom it may concern,

This is to acknowledge the fact that our products: CBD, CBD ALPHA 10%, and all other cannabinoid products are radiation free products of which the concentrated extracts are sterilized at 130°C for 90 minutes.

Sterilization is implemented at Decarboxylation at 130°C for 90 minutes.

Then, Distillation is performed at 90°C for 10 hours.

The final process after isolation, the fractions selected are combined, and the organic solvent (CO₂) is removed under vacuum, and the water removed by lyophilization. The dried final fractions (FF) thus obtained, are kept at -20°C for 20 hours for qualitative analysis.

Therefore, our products are heat sterilization, radiation free.

Should you require further information please do not hesitate to contact us.

Non-radiation products:

Product Name: CBD ALPHA 10%

LOT Number: 2020/04/OCBD/ALPHA10 (applicable on all other batches)

Invoice Number: 20200330

Product Name: CBD

LOT Number: 2020/04/OCBD/CRYSTALS/99 (applicable on all other batches)

Invoice number 20200339
